Mountain Home AFB, ID

Period of Performance:

Hours of Work:

Monday - Friday

7:30 AM to 4:30 PM, not to exceed 40 hours/week

Will not be required to work on federally recognized holidays.

Qualifications

The Physician shall possess and/or maintain the following:

- A. **Degree/Education:** M.D. or D.O. from an accredited medical school in the United States or Canada;
- B. **Certifications:** Basic Life Support (BLS), Certified Flight Surgeon in good standing, Completed AMP 101, 201, and 202 (or equivalents), and AMIP;
- C. **Experience:** As required to meet clinical competency requirements specified in the Service-specific credentialing instructions;
- D. **Board Certification:** Board eligible or board certified in Aerospace Medicine;
- E. **Internship/Residency:** Successful completion of an accredited internship and residency program;
- F. **Licensure/Registration:** Current, full, active, and unrestricted license to practice medicine in the U.S.

Duties

The applicant must be able to locate, interpret and apply current regulations including: AFI 48-123, AFI 36-2905, AFI 10-203, DoD 5210.42R, and AFMAN 13-501.

The flight medicine physician shall provide health care to beneficiaries assigned to the Flight Medicine Clinic, Occupational Health Clinic, or other contractor Flight Medicine physician positions as defined by the MTF. These tasks include performing primary care and occupational health clinician duties and the associated administrative tasks. Care shall include but not be limited to continuing, comprehensive health maintenance and provision of medical care, including preventive medicine, behavioral health, occupational health, and community health.

The contractor Flight Medicine physician may become the primary care manager (PCM) for a panel of patients. As a PCM, the flight medicine physician will be the primary person responsible for the management of the health and wellness of his/her assigned patients.

Duties include:

Examination of patients, formulation of differential diagnostic plans, ordering of appropriate diagnostic testing.

Interpretation of examination findings and test results, and implementation of treatment plans.

Determination of the need for consultation and assisting in medical care and treatment provided at the direction of other specialists.

Approving/disapproving subspecialty referrals.

Directing case management activities.

Answering patient telephone consults with the assistance of clinic staff.

Providing primary and secondary preventive maintenance care.

The Chief, Flight Medicine Clinic will make recommendations on specific duties/patient care assignments, and other duties deemed necessary.

All inpatients will be admitted as per the local MTF instructions.

Diagnose and treat a wide-range of adult acute and chronic diseases and injuries including but not limited to conditions of the: Skin, Pulmonary System, Head, Gastrointestinal System, Eyes, Musculoskeletal System, Ears, Genitourinary System, Nose, Reproductive System, Throat, Lymphatic System, Neck, Central Nervous System, Cardiovascular System, Endocrine System, Psychiatric and Behavioral Health.

Perform medical procedures and maintain certification where appropriate to include, but not limited to, the following:

Basic Life Support, Secure and maintain an adequate airway, to include endotracheal intubation, Cardioversion of life threatening arrhythmias. Simple minor surgical procedures: punch biopsies, excision of skin lesions, Simple abscess incision and drainage, Nail trephination, Sling or swath injuries, Suture simple laceration, Suture removal, Cryotherapy, Nebulizer treatment, Bladder catheterization, Cultures (throat, wound), Remove ocular, nasal and ear foreign bodies, Clearing of ears by flush technique, Reduce simple dislocations and fractures, when appropriate, Bandaging of sprains, minor burns, and minor lacerations, Perform venous punctures for lab studies and interpret results, Administer intravenous, intramuscular and subcutaneous medications as appropriate, Stabilize and evaluate cervical spine injuries as appropriate, Splint and stabilize traumatic injuries to extremities. Review, interpret, and act upon medical surveillance data relating to the Occupational Health program.

Prepare records and reports as required in support of services rendered in accordance with established procedures.

Attend and participate in patient care reports, review meetings, patient care conferences, team conferences, professional staff conferences and other appropriate professional activities only to the extent that such attendance and participation is relative to assigned cases and/or performance of services.

Contractor flight medicine physicians will not fly (as part of their duties), or participate in exercises beyond the scope of medical care specified in their privileges and/or credentials. They will not be utilized as Squadron Medical Element physicians.

Credentialed contractor flight medicine physicians may respond to HAZMAT and in-flight emergencies.

After hours coverage will only be provided if requested by local authorities and written into local contract.

Conduct special operational evaluations and assist in making recommendations to a Government Flight Medicine Physician for determinations, including (but not limited to):

PHA for flyers/special duty personnel.

Initial certification exams for flying/special duty applicants (including foreign military personnel attending US military training, initial health screening for foreign military personnel attending US military training).

Conduct adaptability rating assessment for military special duty applicants.

Make PRP/PSP recommendations (not determinations) IAW DoD 5210.42R and AFMAN 10-3902.13.5

Aeromedical Dispositions: Contractor Flight Medicine providers will be allowed to assist in making (not make) aeromedical dispositions ONLY if they meet the Qualifications criteria listed in the experience section. Aeromedical dispositions must be specifically listed on the Flight Surgeon's credentials and privileges list, which requires initial review and approval by the MTF's SGP. The term "aeromedical disposition" includes drafting and reviewing aeromedical waivers, approving DNIF/DNIC, and return- to-fly 1041s. Exceptions to this policy require approval from AFMSA/SGPF.

Contractor Flight Surgeons will be granted base-level waiver authority only on approval of MAJCOM/SGP. Apply medical, fitness and profiling standards IAW AFIs 48-123, 36- 2905 and 10-203 (including profiling and duty restrictions as Profile Officer).

Complete deployment health assessments IAW DHA policy.

I have read and fully understand the minimum qualifications and duties and will comply with all requirements under this contract service.
